

FEAST for ODIN

Mini Expansion #1

This expansion features two new exploration boards for use with *A Feast for Odin*.

Setup

Place the “Lofoten” exploration board on the left of the “Shetland” exploration board with the “Lofoten” side faceup.

Place the “Tierra del Fuego” exploration board on the right of the “Greenland” exploration board with the side of your choice faceup; the only difference between the sides is the art.

Phase 3: Turn Exploration Boards and Place Silver

- In round 3 (round 2 in the short game), turn “Lofoten,” introducing “Orkney” (in addition to turning “Shetland”).
- Tierra del Fuego is never turned.
- Silver is placed on the new exploration boards as well as the existing exploration boards according to the normal rules.

Phase 5: Actions

- In order to take the “Lofoten” or “Orkney” exploration board, you must have a whaling boat, knarr, or longship, and you must place 1 Viking on the action space where you could take the “Shetland” or “Faroe Islands” exploration board.
- In order to take the “Tierra del Fuego” exploration board, you must have a longship, and you must place 3 Vikings on the action space where you could take the “Baffin Island,” “Labrador,” or “Newfoundland” exploration board.

Phase 10: Bonus

The “Orkney” exploration board features a new bonus: a weapon card. Receive the bonus by drawing a new weapon card and placing it faceup in your supply.
